

Academic Faculty

The **BerbeeWalsh Department of Emergency Medicine** invites applications for **board-certified/eligible emergency medicine physicians** to join our thriving academic faculty group at the University of Wisconsin (UW).

All individuals interested in developing an academic career are encouraged to apply. We are particularly looking to recruit:

- Research Faculty
- Global Emergency Medicine Faculty
- Patient Safety and Quality-Focused Faculty
- Flight Physicians (part-time or moonlighting)

Applicants must have obtained an MD or DO degree and have graduated from an accredited emergency medicine residency program.

Clinical Responsibilities

All faculty members deliver exceptional patient-centered [emergency care](#) as part of an operationally efficient health system at UW Health, the integrated health system of the UW. Our flagship ED, located at University Hospital is one of only two academic medical centers in the state. It is certified as a Level 1 Trauma and Burn Center and is a busy quaternary care center. It has been ranked the #1 hospital in Wisconsin by U.S. News & World Report for 11 years running.

Faculty may staff our 1) community ED at East Madison Hospital; 2) pediatric ED adjoining the adult ED at University Hospital and staffed by faculty with fellowship training in pediatric emergency medicine; or 3) Madison's VA Hospital. Flight physicians will staff [UW Health Med Flight](#), the only air medical service in the U.S. to fly full-time with an attending physician onboard.

Teaching, Scholarly, and Service Responsibilities

All faculty have teaching responsibilities, supporting undergraduate, graduate and medical students, and resident and fellow trainees. Faculty are also expected to engage in scholarly activities that result in publications, including book chapters and original research. Research faculty are expected to obtain external funding. All faculty participate in service activities to support the [clinical and scholarly missions](#) of UW and UW Health. Distribution of effort will be determined in accordance with service needs, academic priorities and the candidate's expertise and academic goals.

About the BerbeeWalsh Department of Emergency Medicine

Since our founding in 2014, the Department of Emergency Medicine has become a top tier academic department of emergency medicine. We are comprised of seven [subspecialty divisions](#) and around [50 academic faculty](#), 39 residents, 8 fellows, and 20 advanced practice providers.

We deliver high-quality care to patients from across the upper Midwest through state-of-the-art clinical facilities and services and robust clinical programs such as EMS, critical care and ultrasound. We also engage communities and health systems abroad through [global emergency medicine](#) initiatives. Integral to our mission is training the next generation of emergency physicians and clinician-scientists through our three-year, ACGME-accredited emergency medicine [residency](#) and 8 [fellowship](#) training programs.

Our [research enterprise](#) performs high-impact clinical and translational emergency care research and fosters the successful development of investigators dedicated to generating new knowledge and advancing equitable health care. Extensive opportunities for collaborative research exist across the UW, with active programs in basic, clinical and public health science.

Our department strives to advance our specialty and to improve the health and wellbeing of patients within the communities we serve through exceptional leadership in clinical care, medical education, research, advocacy and community engagement. We are deeply committed to identifying and addressing structural barriers to health and health equity and to fostering diversity, equity and inclusion in all aspects of our work.

About Madison, WI

The University of Wisconsin is located in Madison, WI, the state's capital and an isthmus city set between the two largest of five sparkling lakes. It boasts beautiful scenery and plentiful outdoor adventure year-round, as well as vibrant arts, culinary, and education hubs. Madison has been named the #1 Best Place to Live in the U.S. by Livability.com for the last two years in a row and is a great place to live and work for both individuals and families. Learn more about all that you can experience in Madison at visitmadison.com.
